INDEX TO VOLUME 7

Authors

Page

Abraham, S., and Outwater, C. H.—The Effects of Farm Cooling Methods and Transportation on the Temperature of Night's Milk 78

Anderson, C. W.—See Gunderson, N. O.

Anderson, E. O.—See Seeley, K. W.

Baten, W. D.—See Mallmann, W. L.

Bendixen, H. A.—See Prouty, C. C.

Blevins, Lewis—Selling the Milk Sanitation Program to the Public 162

Borden, R. C.—How to Make the Other Fellow Want to Cooperate With You 41

Bortree, A. L.—See Bryan, C. S.

Brannon, J. M. — See Prucha, M. J.

Breed, Robert S.—Mastitis Infections and Their Relation to the Milk Supply 143

Bremer, H. E.—The Value of the Milk Serum Agglutination Test in Safeguarding Raw Milk Supplies 26

Bryan, C. S.—See Mallmann, W. L.

Bryan, C. S., and Bryan, P. S.—The Viability of Certain Udder Infection Bacteria in Butter Made from Raw Cream 65

and Bortree, A. L.—A New Modification of the Frost Little Plate for the Detection of Heat Resistant Bacteria in Milk 251

Bryan, P. S.—See Bryan, C. S.

Buck, Theodore C., and Kaplan, Emanuel—A Sterile Cutting Device for Swab Vial Outfits Utilizing Wood Applicators 141

A Microscopic Field Spacer 341

Page

Chen, H. K.—See Jamieson, M. C.

Fabian, F. W.—Report of Committee on Frozen Desserts . . . 31

Farrall, A. W.—Post-War Planning of Dairy Equipment 264

Foley, A. R.—See Gauthier, J.

Frayer, J. M.—Mastitis—Laboratory Tests and Their Interpretation 89

Gauthier, Jacques, and Foley, A. R.—A Cheese-borne Epidemic of Typhoid Fever 211

Gillespie, Dale—Steam High-Temperature Short-Time Pasteurizers 287

Gunderson, N. O., and Anderson, C. W.—Applying the Direct Microscopic and Swab Tests in a Milk Control Program 73

Hammer, B. W.—See Long, H. F.

Hedrick, T. I.—See Long, H. F.

Honaas, O.—See Skinner, C. E.

Hooven, C. A.—The Small Town Milk Control Unit 160

Jamieson, M. C., and Chen, H. K.—Supplementary Home Sanitation of Shipping Cans 136

Johns, C. K.—Cold Weather Care of Milking Machine Rubber Parts 17

Kaplan, Emanuel — See Buck, Theodore C.

Lennox, C. E.—Softening Water for Use in Dairy Plants 343

Long, H. F., Hedrick, T. I., and Hammer, B. W.—Heat Resistant Coliform Organisms, with Particular Reference to Butter 20

Mallmann, W. L., Bryan, C. S., and Baten, W. D.—A Study of Methods for the Microscopic Examination of Raw Milk with Suggested Improvements 315

Marwin, Richard — See Skinner, C. E.

Page

Miersch, Raymond — See Price, Walter V.

Moore, C. M.—Cleaning and Sterilizing Short-Time Pasteurizers 291

Nussbaum, M. A.—The Laboratory Control of Added Water to Milk 255

Olson, R. E.—Short-Time High-Temperature Pasteurization . . . 276

Outwater, C. H.—See Abraham, S.

Palmer, A. M.—The Trumbull Electro-Pure Pasteurizer 283

Perriello, R. C.—A Gastro-enteritis Outbreak from Food . . 68

Plastridge, W. N.—See Seeley, H. W.

Price, Walter V., and Miersch, Raymond—Extraneous Matter Tolerances in Cheese 322

Prouty, C. C., and Bendixen, H. A.—A Comparison of the Roll-Tube and Standard Plate Methods of Making Bacterial Counts of Milk 5

Prucha, M. J., and Brannon, J. M.—Producing Milk with Low Bacterial Counts 129

Roberts, C. R.—Relieving Labor Problems in Creameries 85

Robertson, A. A.—A Course of Instruction for Food Handlers 349

Seeley, H. W., Anderson, E. O., and Plastridge, W. N.—Mastitis and the Plate Count of Milk

III. A Quantitative Study of the Growth of *Streptococcus uberis* in Various Plating Media 191

IV. The Contribution of *Streptococcus uberis Mastitis* to the Plate Count of Herd Milk 195

V. The Behavior of *Streptococcus uberis* in Milk Held at Different Temperatures 329

Shrader, J. H.—Scientific Advances in the Dairy Industry . . 98

Skinner, C. E., Marwin, Richard, and Honaas, O.—A Comparison of Two Standard Media for the Detection and Enumeration of *Escherichia* and *Aerobacter* in Milk 200

Smith, Elinor Van Dorn—The Incidence and Types of Coliform Organisms in Pasteurized Cream 338

Swenson, S. P.—See Prouty, C. C.

Tracy, P. H.—Powdered Whole Milk and Milk Products—Their Possible Effect upon the Future of the Dairy Industry 206

Weber, C. W.—Conservation of Milk Plant Equipment 156

Weckel, K. G.—The Value of Membership in the Wisconsin Milk Sanitarians Association to Wisconsin Milk Sanitarians 240

Variability in Quality of Cotton Lintine Disks Used for Determining Extraneous Material in Milk 260

Wiggers, Fred A.—Reliability of Formulae in Determining Milk Solids-Not-Fat 133

Subjects

Page

Address of President 359

Address of Secretary 363

Aerobacter in Milk, A Comparison of Two Standard Media for the Detection and Enumeration of *Escherichia* and 200

Applying the Direct Microscopic and Swab Tests in a Milk Control Program 73

Army Recognition of the Qualified Milk Sanitarian, Report of the Committee on 239

Association News . . 50, 178, 236, 300, 356

Bacterial Counts of Milk, A Comparison of the Roll-Tube and Standard Plate Methods of Making 5
